ABOUT US

Who are we?

Inspired by Nature. Led by passion. Infused with love.

Touched by history. In-love with lifestyle. Committed to our guests.

Trip & Travel Montenegro was founded with the aim of providing tourism services, thus creating the preconditions for the owner's personal experience to grow into a legal entity and create a platform for continuous growth and development.

Today, the company is organized in **three segments**, each operated under a different name. We offer **private and small groups**: vacation packages, shore excursions and airport transfers.

Our carefully selected **team** members can provide you with the best kept secrets. We can show you a plethora of beaches, mountain ranges, river canyons, hidden villages and many other places worth visiting while on a quest through the so-called "Jewel of the Mediterranean".

ABOUT US

TRIP&TRAVEL
MONTENEGRO

Our brands

The company is divided into **3 segments**:

Mont Travelers Podgorica, Mont Travelers

Kotor and Montenegro Lifestyle.

ABOUT US

Mont Travelers Kotor

Lately, Montenegro has become one of the best-selling **tourist hotspots** in Europe and beyond. Our clients have the opportunity to scratch the surface in a couple of hours, being that they come via cruise ships that anchor in the port of **Kotor**. Left intrigued, Montenegro will make them come again for sure.

ABOUT US

Mont Travelers Podgorica

The capital of Montenegro is well known as a starting point for popular Montenegrin vacation packages. But, as a DMC we take care of those with busy schedule, too.

Podgorica, as a capital of Montenegro, constantly grows into a business destination and that's why we offer **one-day experiences** when there is a bit of time to spare. Continental Montenegro is as scenic as the coastal area, so we have something special for all those who like to wander through unparalleled beauty.

ABOUT US

Montenegro Lifestyle

Montenegro Lifestyle is specialized in providing the **best experiences** Montenegro can offer, FIT and **Luxury tourism**. Unique proposals and customer-centric approach are what makes a difference. Sailing tours, yacht charter and tailor-made vacations are our specialties. There are regular tours or tourist offers and there is Montenegro-Lifestyle.

ABOUT US

Our awards

We are a proud holder of the **TripAdvisor Excellent Certificate** since the inception, and **since 2016** we are awarded a **new badge every year!** This couldn't be possible without our amazing guests, to whom we are eternally grateful for trusting us, as well as for their heartfelt recommendations.

SKADAR LAKE BOAT CRUISING – BUDGET FRIENDLY TOUR

A brief escape from an urban city will leave you with memories that are worth remembering and sharing with your friends.

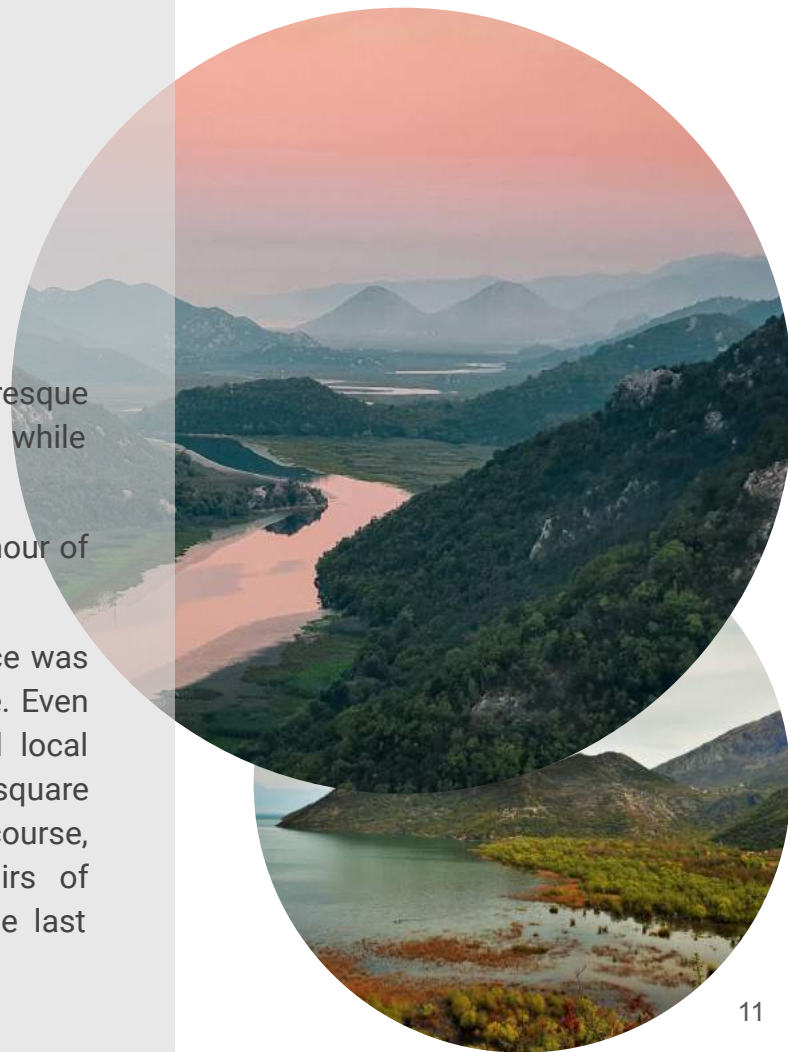

3 hours

SKADAR LAKE BOAT CRUISING

Skadar Lake is one of the most beautiful and picturesque **National Parks** in Montenegro. A real refreshment while visiting Podgorica city.

The basic tour itinerary is three hours including an hour of land transportation.

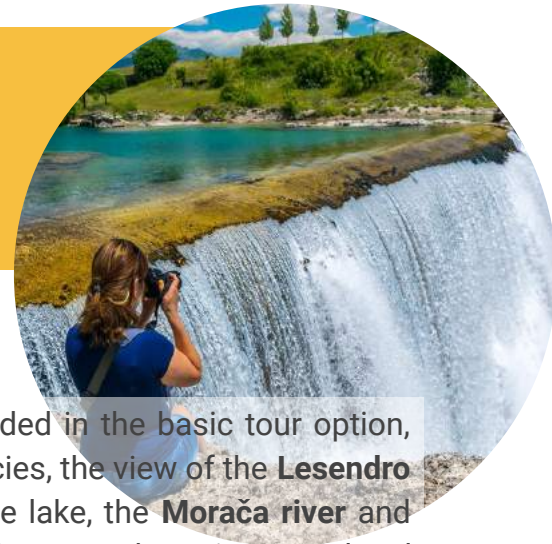

We start the tour by visiting **Virpazar** town that once was the main market place on the coast of Skadar Lake. Even today, on certain days of the week you can find local products sold by old and young locals on the main square of the town. The most favorite products are, of course, wines from small family vineyards and souvenirs of **pelicans**, of which the National Park is one of the last habitats in Europe.

SKADAR LAKE BOAT CRUISING

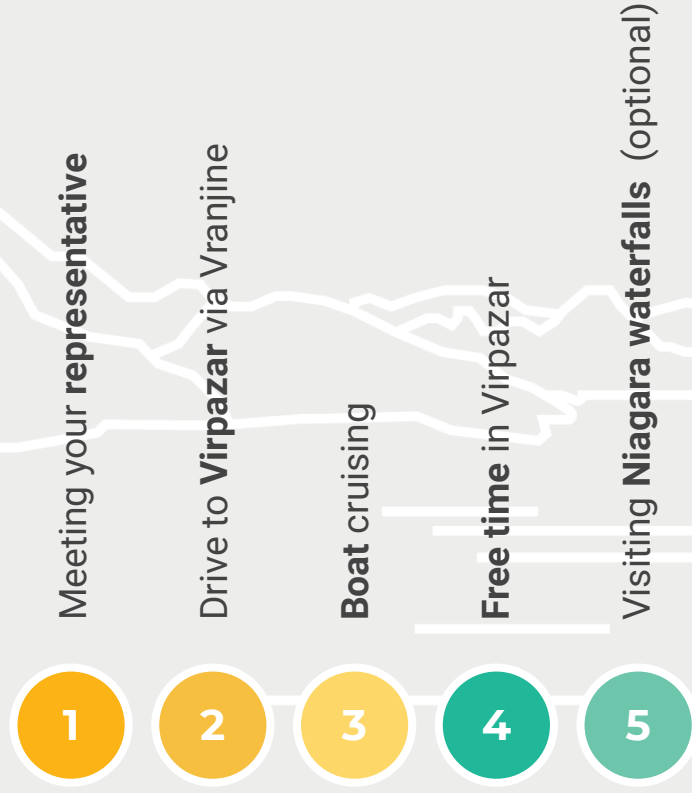

In one hour of **boat cruising** which is included in the basic tour option, you will be able to enjoy different birds species, the view of the **Lesendro fortress**, a small village on the coast of the lake, the **Morača river** and the company of our friendly skipper who is a local guide with great knowledge of the area.

At your request, we can organize an extra hour or two for the price of **€30 per hour**. In the additional hours, we could visit a few monasteries on the islands or even take some time for swimming or lunch.

SKADAR LAKE BOAT CRUISING

ITINERARY

SKADAR LAKE & WINE TOUR

Hungry for natural beauty and traditional cuisine, this tour will satisfy all your expectations and awaken in you the desire to come back to Montenegro.

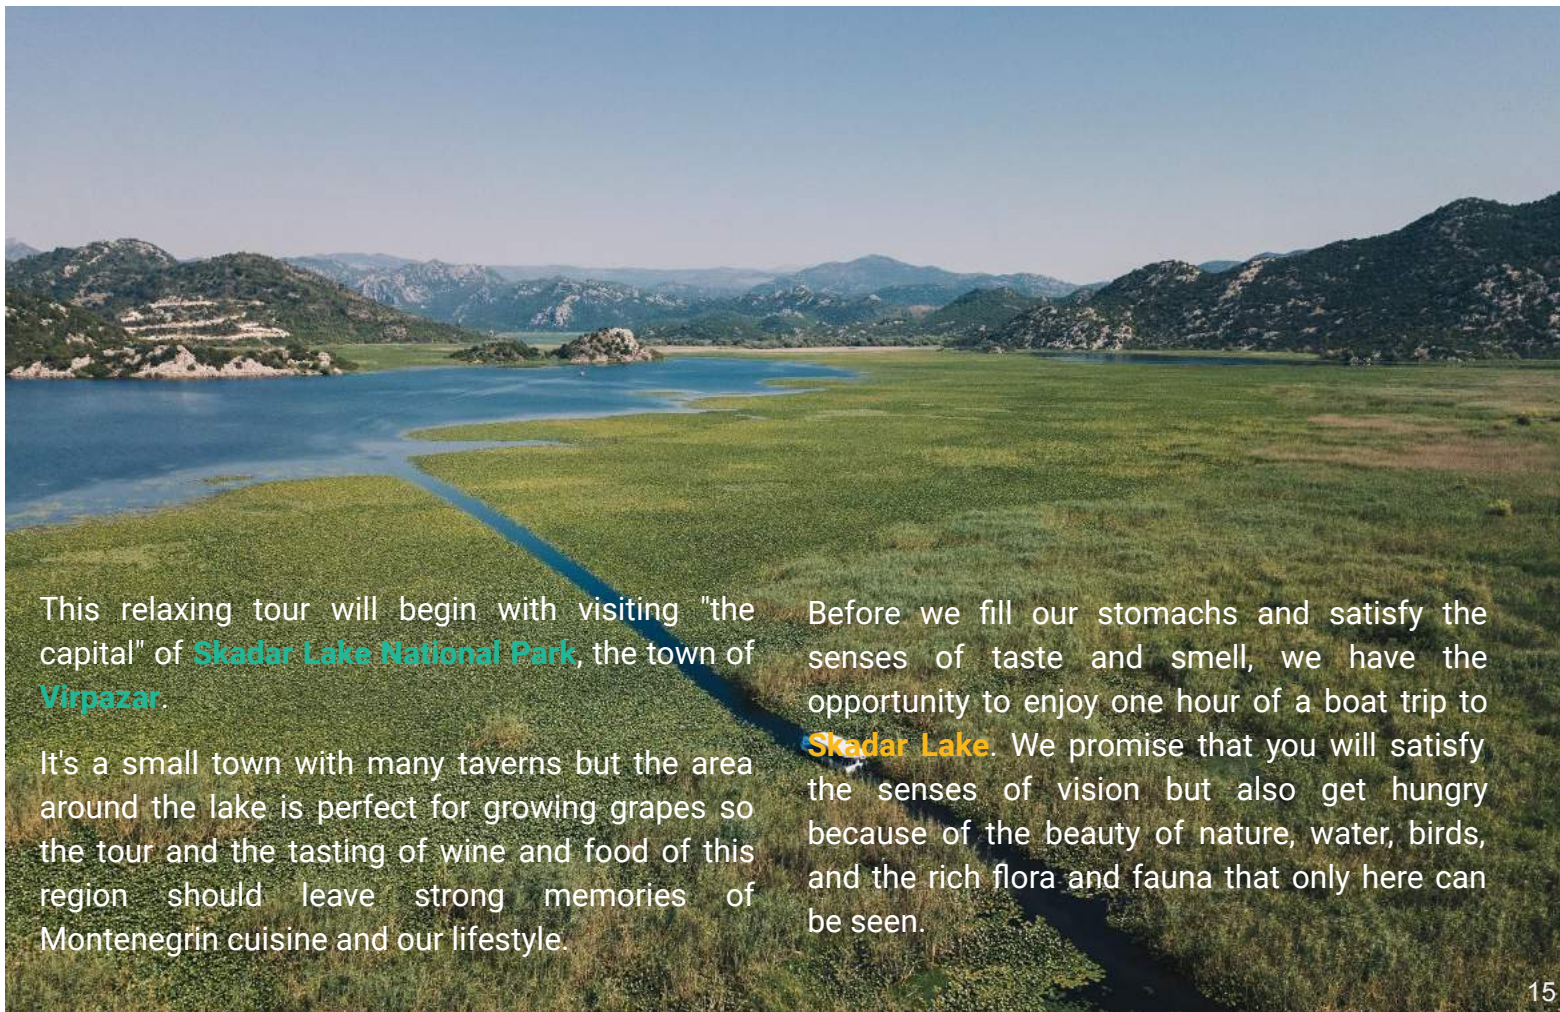

~5 hours

SKADAR LAKE & WINE TOUR

This relaxing tour will begin with visiting "the capital" of **Skadar Lake National Park**, the town of **Virpazar**.

It's a small town with many taverns but the area around the lake is perfect for growing grapes so the tour and the tasting of wine and food of this region should leave strong memories of Montenegrin cuisine and our lifestyle.

Before we fill our stomachs and satisfy the senses of taste and smell, we have the opportunity to enjoy one hour of a boat trip to **Skadar Lake**. We promise that you will satisfy the senses of vision but also get hungry because of the beauty of nature, water, birds, and the rich flora and fauna that only here can be seen.

SKADAR LAKE & WINE TOUR

On the **boat**, you will find some juice, water, and on colder days even rakija. The guide/skipper will, of course, let you know more about the National Park but you will be given time to enjoy the peaceful nature too.

After the lake cruise, when we get to the small **family winery** we will be offered at least three different wines, grappa, homemade olives, prosciutto, salad, a few kinds of cheese, and of course homemade bread.

All this will be presented by our host and winemaker assisted by at least one more family member for a better introduction of our hospitality, and they will entertain you with interesting stories of local legends.

Enjoy your drive back and keep the memories, that will surely make your friends jealous.

SKADAR LAKE & WINE TOUR

ITINERARY

RIJEKA CRNOJEVIĆA – OSTROG MONASTERY TOUR

The tour is a great choice to visit the two most attractive places in central Montenegro in just a couple of hours. This is a beautiful oasis of peace and rest for the eyes and mind of every visitor.

~5 hours

RIJEKA CRNOJEVIĆA – OSTROG MONASTERY TOUR

There are many legends spoken of this sacral place: **Ostrog Monastery**. Most of them are related to spiritual wonders and healing. Whether you are religious or not, the whole site offers an opportunity for introspection and a search for inner peace.

The Ostrog Monastery is one of the most-visited sacred sites in the world. And it is not just the Christians that come to enjoy this place. People of other religions are also welcome to say a prayer for the wellbeing of their loved ones.

RIJEKA CRNOJEVIĆA – OSTROG MONASTERY TOUR

After this spiritual cleansing, we head back downhill to hit the road and visit the old village which the royal **Crnojević** family held as the capital back in the **15th century**. A hundred years back it was the largest port in Montenegro, also a leading trading center.

Next to the short promenade, it's featuring a local symbol - a **135 years old stone bridge**. There's another interesting fact about this place: Rijeka Crnojevića was home to the first printing house in the western Balkans. Modern times brought fame to this place because of its surroundings. Our best pick is a panoramic road known as Paul's side which gives great views, made for postcards.

Of course, nothing in **Rijeka Crnojevića** is done without tasting local delicacies - fish and wine (although it's not included in the price, we warmly recommend you to try these specialties).

As an **additional activity**, we suggest a **boat ride** of one hour for **€30** per group plus tickets for the **National Park €5** per person.

RIJEKA CRNOJEVIĆA – OSTROG MONASTERY TOUR

1

Meeting your **tour guide**

2

Panoramic drive to the **Ostrog Monastery**

3

Visiting the **Ostrog Monastery**,
upper and lower part

4

Drive to **Rijeka Crnojevića** via
Pavlova Strana

5

Visiting the town and some free
time or additional activity

6

Drive back to **Podgorica**

ITINERARY

LOVČEN NATIONAL PARK – CETINJE – RIJEKA CRNOJEVIĆA

All these picturesque places are considered Old Montenegro so this tour should be No.1 for all of you who would like to learn more about this historically rich country.

~7 hours

Throughout the centuries many empires came to **Montenegro** and many succeeded in conquering it. No wonder that there are still remains of different architectural styles standing today. On this tour, we will guide you through the stories and places that are especially interesting for our country.

Our first stop is the **Old Royal Capital** of Montenegro, **Cetinje**. It's a living postcard with small houses, museums, and a monastery from the 15th century. Many Montenegrin ruling families chose this place to become their home and for a good reason. Just a couple of miles away lies the **Lovćen mountain** which oversees the magnificent **Boka bay**, so it was strategically just as important as it is beautiful.

LOVČEN NATIONAL PARK – CETINJE – RIJEKA CRNOJEVIĆA

The **Lovćen National Park** is home to countless medical herbs so the air is very refreshing. The breathtaking views can reach the Italian coast by clear weather.

All your senses work here, and after 461 steps leading up to the most famous mausoleum of Montenegro, we are sure that you will notice some positive effects on your health.

After visiting **Lovćen**, we're driving towards the town of **Rijeka Crnojevića** that lies on the brink of yet another National Park, called **Skadar Lake**.

LOVČEN NATIONAL PARK – CETINJE – RIJEKA CRNOJEVIĆA

Our best pick for the route is a panoramic road known as **Paul's side** which has great views and provides perfect shots for postcards. Of course, nothing in **Rijeka Crnojevića** is done without tasting local delicacies - fish and wine (although it's not included in the price, we warmly recommend you to try these specialties).

Optional: Skadar lake cruising at your request. The price depends on the number of people.

LOVČEN NATIONAL PARK – CETINJE – RIJEKA CRNOJEVIĆA

1

Meeting your **tour guide**

2

Panoramic drive to **Cetinje**, the Old Royal Capital of Montenegro

3

Visiting **Cetinje** town

4

Visiting the **Monastery of Cetinje**

5

Panoramic drive up to the entrance of the **Lovćen** mausoleum

6

Walking up the **stairs** to the **Lovćen mausoleum**, enjoying the place & the view

7

Panoramic drive to **Rijeka Crnojevića** via Pavlova Strana above the river Crnojevića

8

Drive back to **Podgorica**

ITINERARY

BEST OF MONTENEGRO TOUR

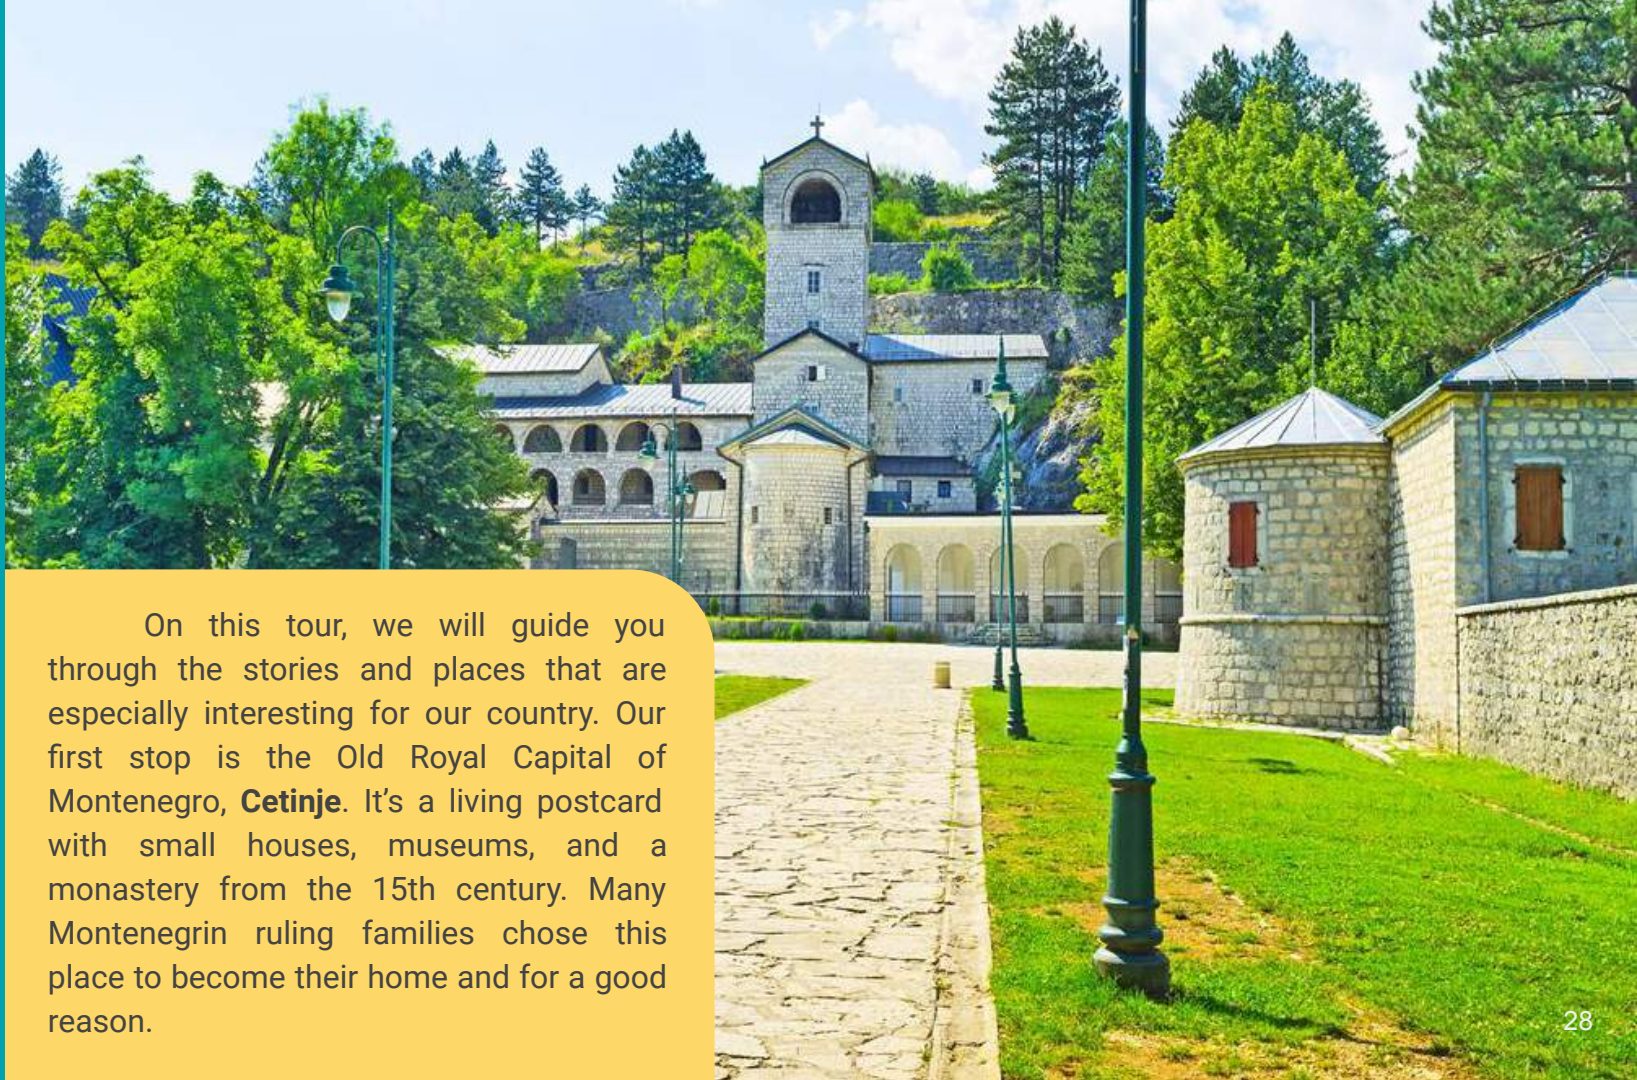

If you are a fan of the blue sea, medieval towns, breathtaking mountains all spiced up with good traditional cuisine, then this tour is your best choice for sure. Throughout the centuries many empires came to Montenegro and many succeeded in conquering it. No wonder that there are still remains of different architectural styles standing today.

7 hours

BEST OF MONTENEGRO TOUR

On this tour, we will guide you through the stories and places that are especially interesting for our country. Our first stop is the Old Royal Capital of Montenegro, **Cetinje**. It's a living postcard with small houses, museums, and a monastery from the 15th century. Many Montenegrin ruling families chose this place to become their home and for a good reason.

BEST OF MONTENEGRO TOUR

Just a couple of miles away lies the **Lovćen mountain** which oversees the magnificent Boka bay, so it was strategically just as important as it is beautiful. **Njeguši** was a stronghold of the Petrović dynasty and the most famous Montenegrin ever: Petar II Petrović Njegoš, beloved bishop, ruler, and poet.

This area is famous for tourists today because of its historical atmosphere. The houses are built like in the old times and there are still some stone houses standing since the 1800s or 1900s. It's also a food manufacturing center famous for traditional Montenegrin smoked ham and cheeses. We will tell you about "gumno" or "guvno" – a place where old Montenegrins made all the important decisions – and the less important ones, too.

BEST OF MONTENEGRO TOUR

From Njeguši downwards our path leads through **25 serpentines** made by the Austro-Hungarian Empire. It is probably one of the most wonderful roads in the world, with the sights of Boka Bay and the sea.

After enjoying this scenic route, it's time to visit the old town of **Kotor**. Legends say that it was founded 1000 years ago. Its narrow cobblestoned and intertwined streets with churches, cathedrals, cafes, and shops around every corner are just something you need to discover on your own.

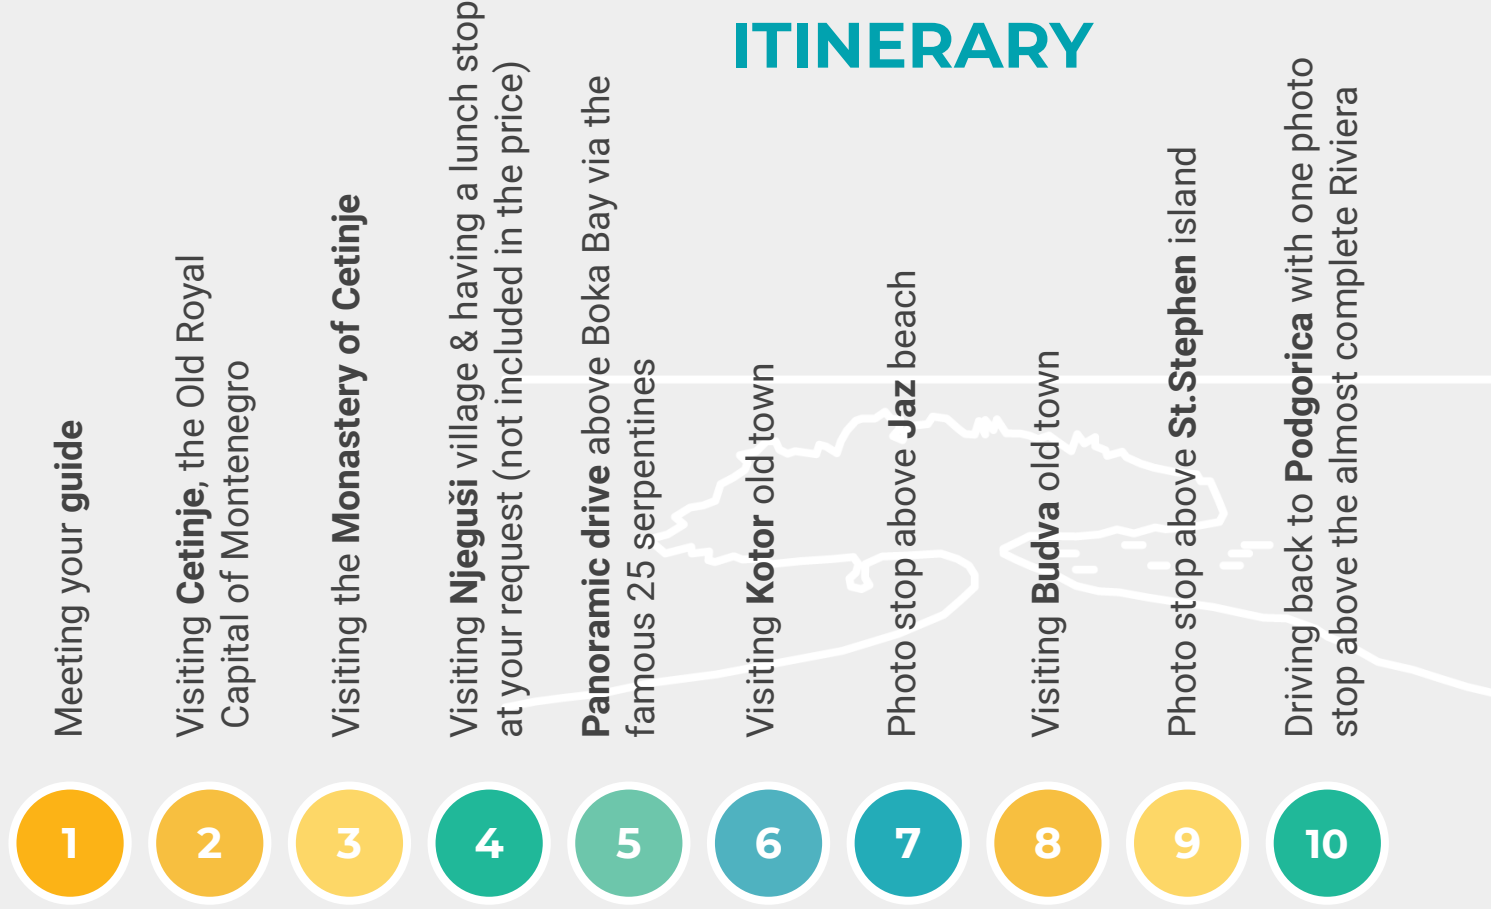

BEST OF MONTENEGRO TOUR

Then we move on to visit another old town. This one belongs to **Budva Riviera**. And it is similar to Kotor but has a completely different story to tell. Also, Budva is the most popular place in the whole country. Especially its islet of **St. Stephen**, which was once an island. Now it's more of a peninsula with authentic little houses that are all part of a big hotel.

If this sounds confusing, that's only one more reason for us to take you there and explain everything. Of course, it is so beautiful that your family and friends are going to love your photos.

BEST OF MONTENEGRO TOUR

RAFTING TARA TOUR

Because of its clearness, Tara is known as the “tears of Europe” so, for a reason, Montenegrins are proud of the river as one of the most recognizable symbols of our beautiful country.

All day

In Montenegro, it's all about wild beauty and the wildest part of it lies on the brink of the **Tara river canyon**. Summer days in our country can be very hot, so if you are up for some fresh air and a good adventure, come with us, you won't regret it.

Starting from **Podgorica**, we go **towards the North** to the small town called Plužine. It is famous for its artificial Lake Piva and a dam, which former ruling structures made for hydropower. But it's a passing point because our last stop is on the outskirts of the town where rivers collide and one of them is definitely going to be the highlight of the day.

RAFTING TARA TOUR

Tara river has the deepest canyon in Europe, but in this part of Montenegro, it's famous for **rafting**. Coming close to our starting point, you can hear happy screams from beneath because Tara rapids offer so much fun which makes it impossible not to express your feelings. When we're all set, we get on the raft and start our adventure.

The ride is 3-4 hours long. But we have at least one stop to have some refreshments on the right bank of the river, under the covers of untouched nature. And there is a waterfall nearby for the best photos.

RAFTING TARA TOUR

Important note: you will have to work your way down Tara river so be prepared to use some muscle. But the reward comes afterward.

After this fantastic experience, we are going to have **lunch** in one of the rafting camps that are famous for their local dishes and traditional cuisine. ***So you'll see – all the effort will be compensated.***

RAFTING TARA TOUR

ITINERARY

*At your request, we can change the itinerary by adding another starting point and **Zip-Line near Đurđevića Tara bridge**.

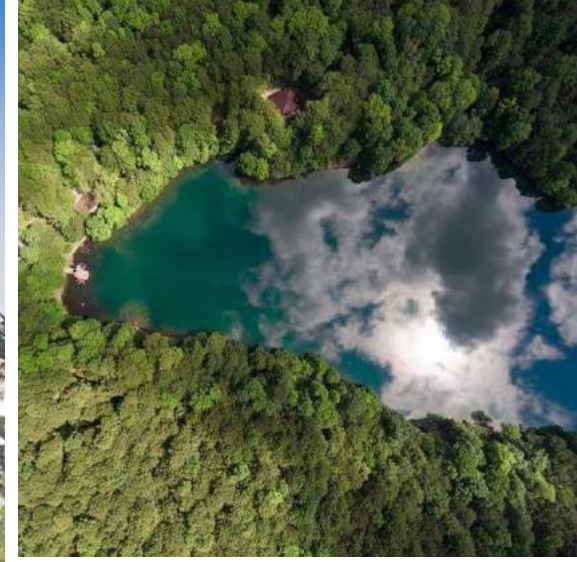

DURMITOR NATIONAL PARK TOUR

We are sure that you have already heard that Montenegrins are proud of their country rich in natural beauty. Well, this is a tour that will prove how right they are. Here's what we have in mind.

~8 hours

DURMITOR NATIONAL PARK TOUR

The panoramic road along the lakes, through small picturesque villages, through the black pine forest whose grandiose trees, up to **50 m in height**, withstand a full **400 years**, we will reach the highest inhabited town in the Balkans, **Žabljak**.

Its altitude is not everything that makes it different, Žabljak is the center of **Durmitor** but the heart of this beautiful mountain town is the Black Lake.

DURMITOR NATIONAL PARK TOUR

Well known as the "Montenegrin eyes" the **Black Lake** is the biggest and the most beautiful of 17 lakes in the **Durmitor National Park**. That's right, this mountain is extremely rich in water and that's exactly what the word Durmitor means.

A short walk to the lake and maybe some moderate hiking along the marked trails and snacks in the bar on the shore will give you pleasure and refreshment for the whole day.

DURMITOR NATIONAL PARK TOUR

After a break, we continue and experience a new level of beauty of **Durmitor**.

Tara river has the **deepest canyon in Europe**. It will introduce you to unspoiled nature and while standing above this over 150 feet depth, the Đurđevića Tara bridge provides a unique view of the fast river and the surrounding nature. It's not all about beauty, this bridge also has a significant role in the history of Montenegro, but let's leave something to the guide to tell you.

DURMITOR NATIONAL PARK TOUR

Let's not forget to mention the **Zip Line**, which will give you a special experience and the most beautiful view of the bridge if you dare to "fly" from one side to the other (not included in the price).

On the way back we will visit the **Morača Monastery** and with a panoramic ride on the edge of the **Morača River Canyon**, you will experience one of the most dangerous roads in Europe. But don't worry, you are in good hands.

*At your request and if there is time, an additional activity can be a visit to the **National Park Biogradska Gora**.

DURMITOR NATIONAL PARK TOUR

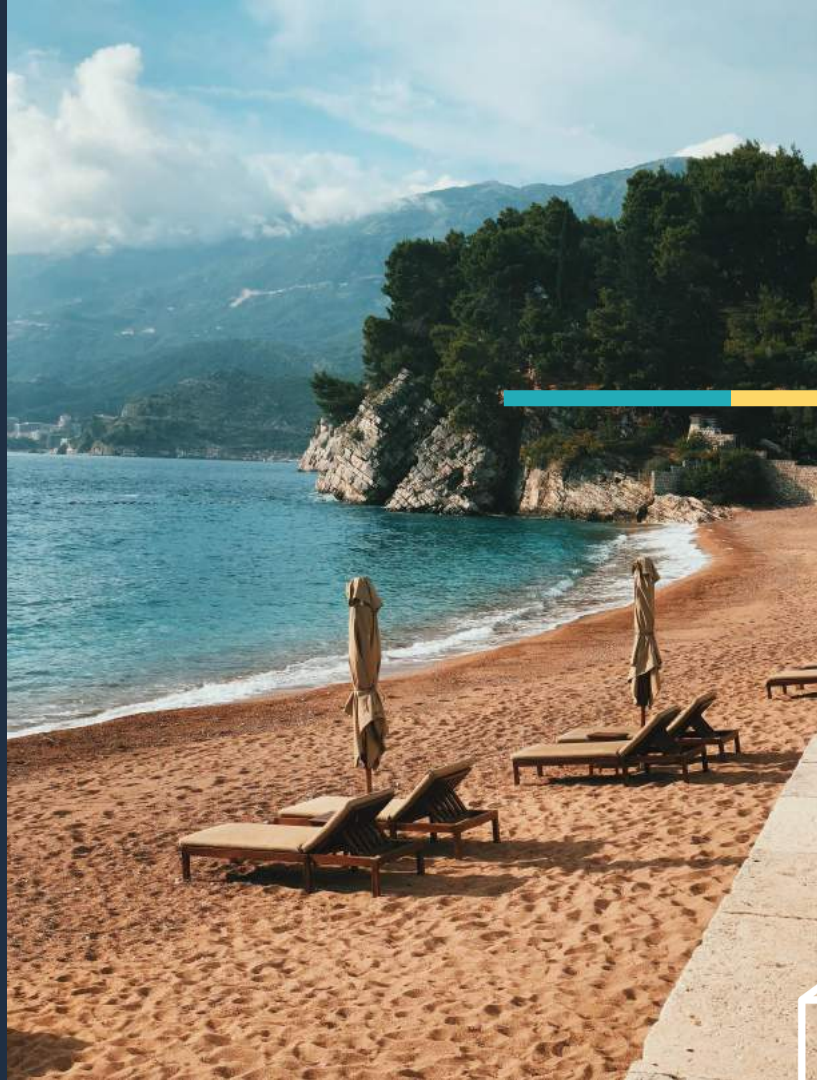

- 1 Drive via Niksic by the lakes through small villages to **Žabljak**
- 2 Visiting **Black Lake**, free time
- 3 Stop at **Đurđevića Tara Bridge** (opportunity for ZipLine)
- 4 A scenic drive via **Tara canyon**, photo stops
- 5 A scenic drive via **Morača canyon**
- 6 Visiting **Morača Monastery**
